

Cuddle® Cube soft blocks

Fabric & Notions/Supplies

Scraps of Cuddle® or Luxe Cuddle® fabric

Fusible interfacing

Hand-sewing needle

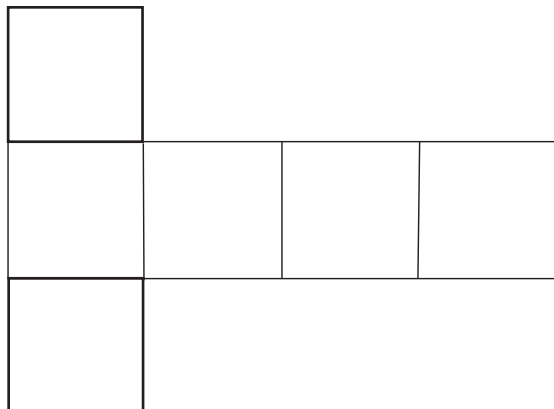

Neutral color polyester thread

90/14 stretch sewing machine needle

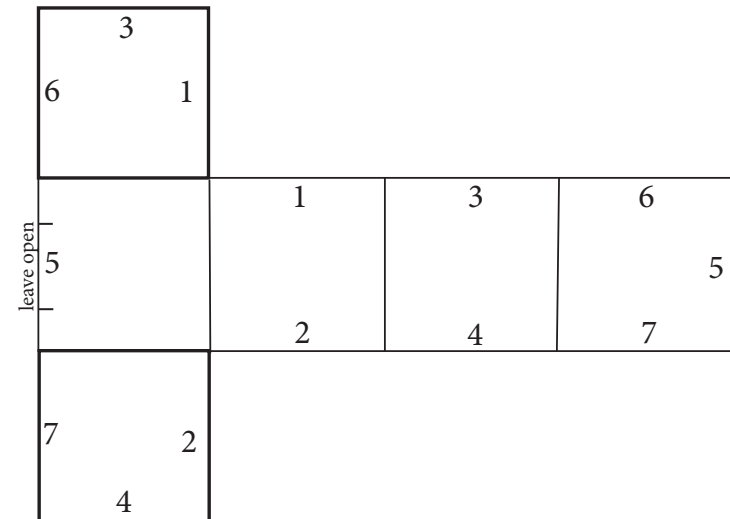

Polyester fiberfill

Assembly Instructions

1. To embroider or applique (optional), use pieces larger than final block size. Embroider or applique as desired.
2. Cut six squares of Cuddle® 3, Luxe Cuddle® and/or Cuddle® Dimple each the same size. (For our samples we used 6" x 6" and 4" x 4").
3. Cut six squares of fusible interfacing the same size as your Cuddle® squares.
4. Using a low-heat iron, fuse interfacing to Cuddle® squares.
5. Arrange squares in a T layout, making sure that nap is going in the same direction for all pieces.
6. Pin pieces right sides together, two at a time, and sew with a 1/4" seam allowance. Repeat with remaining squares to create the T shape shown below.

7. Following the diagram, sew seams together to create the cube. On seam 5, leave a 2-3 inch opening, as shown.

8. Stuff with polyester fiberfill until as firm as desired.
9. Hand-sew opening closed.
